PERTURBING MATERIAL-COMPONENTS ON STABLE SHAPES: HOW PARTIAL DIFFERENTIAL EQUATIONS FIT INTO THE DESCRIPTIONS OF STABLE PHYSICAL SYSTEMS (PAPERBACK)

Trafford Publishing, Canada, 2014. Paperback. Book Condition: New. 235 x 190 mm. Language: English . Brand New Book ***** Print on Demand *****.This book is an introduction to the simple math patterns that can be used to describe fundamental, stable spectral-orbital physical systems (represented as discrete hyperbolic shapes, i.e., hyperbolic space-forms), the containment set has many dimensions, and these dimensions possess macroscopic geometric properties (where hyperbolic metric-space subspaces are modeled to be discrete hyperbolic shapes). Thus, it is a description...
