CHAPTER VI A PLAN FOR ANTILUETIC TREATMENT Eternal vigilance is the price of freedom from the spirocheta pallida. Immediate, consistent, persistent and proper treatment is necessary to overcome the ravages of syphilis. As soon as a diagnosis of lues is made, it is the duty of the physician to institute treatment. We believe that the great majority of sores on the penis are likely to be chancres and we make it a rule to so regard all sores that put in an appearance ten days or longer after exposure. It is far better to treat a chancroidal case as if it were specific than to slip up on a case of chancre. It is well to bear in mind that many sores diagnosed as chancroids reveal both Ducreys bacillus and the spirocheta pallida and consequently demand antiluetic treatment. Dark field illumination should be used...
