Reviews

An incredibly great book with perfect and lucid answers. Better then never, though i am quite late in start reading this one. You will not sense monotony at whenever you want of the time (that's what catalogues are for relating to if you question me).

(Nannie Lindgren Jr.)

DIE LIEBE KULTUR- UND MORALHISTORISCHE STUDIEN UBER DEN ENTWICKLUNGSGANG DEUTSCHEN GEFUHLS- UND LIEBESLEBENS IN ALLEN JAHRHUNDERTEN .

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. OCLC Number: (OCoLC)60768384 Subject: FA-22 (Jet fighter plane) -- Evaluation. Excerpt: . . . Ongoing program uncertainties - including uncertainties about the aircrafts design and procurement quantities - make it difficult to understand what capabilities can be delivered with future investments. For example, DOD has been working over the past year to restructure the JSF program to accommodate changes in the aircrafts design; until this restructuring is completed, it will be difficult to accurately estimate program costs. The need for design changes largely resulted from the increased weight of the short takeoff and vertical landing variant and the impact it was having on key performance parameters. The other JSF variants designs were affected as well. The program plans to have a more comprehensive cost estimate in the spring of 2005. However, a detailed assessment has not been conducted to determine the impact that the restructured program will have on meeting performance specifications. Until the detailed design efforts are complete - after the critical design review in February 2006 - the program will have difficulty assessing the impact of the design changes on performance. While the program office anticipates that recent design changes will allow the aircraft to meet key performance parameters, it will not know with certainty if the weight problems have been resolved until after the plane is manufactured and weighed in mid-2007. Program officials are also examining ways to reduce program requirements while keeping cost and schedules constant. Design and software teams have found greater complexity and less efficiency as they develop the 17 million lines of software needed for the system. Program analysis indicated that some aircraft capabilities will have to be deferred to stay within cost and schedule constraints. As a result,...
