In 1979 psychologists discovered that it has an extraordinary effect: if you stare at it for two minutes, you dramatically weaken in strength. In this brilliant study of the strange recesses of our minds, Adam Alter reveals the world is full of such hidden forces that shape our every thought, feeling and behaviour - without us ever realizing. * Some letters in product names make us more likely to buy them (nearly all successful brands contain a 'k' sound) *We're more likely to be critical if we write in red rather than green biro * Your first report at school can determine your future career Understanding these cues is key to smarter decision-making, more effective marketing, and better outcomes for our selves and our societies.
